CONDITIONS OF SALE

COMMISSION

1. A buyer's commission of 10% of the hammer (selling) price will be added, and becomes part of the total purchase price to be paid by the buyer.

BIDDING

2. All Bids are per lot, as numbered herein. We reserve the right to withdraw any lot prior to the sale, to divide a lot or to group two or more lots.
3. The highest bidder shall prevail. It is the sole right of the Auctioneer to settle any dispute between bidders, to offer for resale any lot under question and to regulate the bidding. The auctioneer also reserves the right to refuse any bid he believes not to have been made in good faith.
4. Persons unable to attend the sale may bid via the enclosed bid sheet or by telephone by using our WATS 800-221-7276. New York State residents may call 212-751-1900. We will be pleased to assist you in bidding, answer any questions regarding a lot, or give you more information on any lot(s).

PAYMENT

5. Payment shall be in U.S. Funds. All bidders, floor or via mail or telephone shall pay for their lots in advance of delivery unless prior arrangements have been made. Successful mail bidders shall be notified of lots won and must remit prior to lots being shipped. A charge for postage, insurance and handling shall be added, as well as appropriate New York State Sales Tax where applicable. Exemption Certificates must be on file with us prior to the sale. Receipt from a reputable carrier shall constitute delivery by us.
6. Title shall not pass until payment in full for won lots has been received. A late charge of 1½% per month shall be imposed on overdue payments.
7. Placing of a bid shall constitute an agreement between buyer and seller and acceptance of the foregoing terms.

GUARANTEES

8. All items offered in this catalogue are guaranteed as to date, mintmark, metal, specialized catalogue number (such as Sheldon) attribution and of course, authenticity. Lots on which description is incorrect according to the above, are returnable with advance permission from HRN. Disputed lots must be returned intact in their original containers, within 10 days of receipt. Lots are not returnable for any reason (other than a question of authenticity) if:
 - a) You are a floor bidder, even if you did not view the lot.
 - b) You viewed the lot prior to the sale.
 - c) The lot contains more than one coin.
 - d) A photograph of the lot in question appears in the catalogue and clearly shows any defect not noted in description.
 - e) You cannot afford the lot. Bids placed in an auction are legally binding. Please check your finances prior to bidding.
 - f) You simply do not like the coin even though the description is correct. An auction sale is NOT an approval sale and is NOT conditional.
 - g) More than thirty days has elapsed since the day of the sale.

DESCRIPTION

9. The grading of any coin is a matter of interpretation of the features of that coin as seen by the grader. Grading is NOT an exact science but an art. It is a blending of what the grader sees added to his knowledge of coins in general and of the specific characteristics of the coin in question, plus his experience and awareness of current grading practices as well as market conditions. Even knowledgeable and experienced numismatists can (and do) HONESTLY disagree on the exact grade to place on a coin. Additionally, grading standards have been known to constrict or relax in accordance with market conditions at any given time. The grades represented herein are a reflection of our experience and expertise in the art (not science) of grading and our awareness of the numismatic field at this particular time. They reveal our best opinion of the state of preservation of the item, and are in accordance with most presently used guides on grading as we interpret them. Finally, please be aware of the price paid for a coin. In many cases a lot may not meet your expectations, but you have purchased it for a substantially reduced price. Please keep this in mind when deciding if a lot is satisfactory.

A FEW TIPS ON BIDDING

With this auction sale, and in accordance with the growing custom of other auction houses, Harmer Rooke has dispensed with the printing of estimates for each lot. It is expected that all potential buyers, both professionals and collectors, are well aware of the current values of most coins, particularly those in which they have some interest.

However, since prices are guided, in many cases, by various publications and since these prices change, sometimes drastically, from week to week, an auction catalogue written some three months previous to a sale may not contain cogent prices, and, in fact, may sometimes be more misleading than helpful. Therefore, we have eliminated the estimate column.

May we suggest bids that make sense. Offering \$100 for a \$1000 coin wastes only your time and ours. While it occasionally happens that a bargain can be obtained at auction, most coins will sell for a price fairly close to their actual value. Please keep this in mind when bidding by mail. And, regardless of "lucky numbers" we would appreciate it if bids are not offered in odd amounts. Such bids will be automatically reduced to the lowest whole number. (\$102.34 becomes \$100.00).

St. John's Abbey, quietly surrounded by more than 2500 acres of woodland and lakes, was established in 1865 by five Benedictine Monks who had traveled westward from St. Vincent's Abbey in Pennsylvania some nine years earlier, their avowed intention to care for the educational and spiritual needs of the settlers in the then-wild territory which was to become the State of Minnesota. One need only to look around this beautiful Abbey and University on the shores of Lake Sagatan to know how well they succeeded!

Today, more than 1800 students from many states and lands work towards one of the 44 major degrees St. John's offers, taught by more than 100 Benedictine Monks and lay faculty. Of these students, the greatest majority live on campus encouraging life-long friendships and fostering an atmosphere conducive to learning. The school of Theology enrolls perhaps 250 students per year, who graduate into the secular world as Monks or Priests.

Additionally, St. John's offers many other programs including The Liturgical Press, The Institute for Ecumenical and Cultural Research, The Human Life Center, The Hill Monastic Library, and The Institute for Spirituality. St. John's Preparatory School, established in 1857, serves the community by preparing some 250 students, both boys and girls, for college entrance, either at St. John's University or elsewhere. And although the University itself is for men only, there are close ties with nearby College of St. Benedict, a women's college of about the same size. Students may study at either or both and all classes and activities at both schools are coeducational.

St. Benedict of Nursia wrote in the sixth century "and so we are going to establish a school for the service of the Lord". The good fathers at St. John's have certainly carried out his wishes!

The St. John's Abbey Collection was formed by Monsignor John Jershe (1891-1975) and given to the Abbey in gratitude for the education he had received as a youth at the College.

Born in Yugoslavia, John Jershe and his family emigrated in 1902, to Ely, Minnesota where they had relatives. Young John was encouraged to study for the priesthood by Father Buh, a missionary, and Father Bernard Kevenhorster, a Monk at St. John's Abbey. With their backing, he entered the Preparatory School in 1906, being ordained in 1916 for the Diocese of Duluth.

Although much of his tuition, room and board was paid for by the Abbey, John helped out by performing odd jobs and services. It is interesting to note that one of his duties at this time was to count the Sunday collection plate. While doing this, he noticed many odd coins, which he would put aside for further study. Eventually, he acquired a catalogue and thus was born his interest in numismatics. Years later, recuperating from a serious illness, he took up coin collecting in earnest, at the behest of his doctor, who felt that a hobby would be helpful in passing the time. Many of those "odd coins" retrieved from the collection plate are in the lots which we are proud to offer here today.

Harmer Rooke Numismatists Ltd. is proud to present the following comprehensive collection of coins, property of The St. John's Abbey in Collegeville, Minnesota. When examining this catalogue you will notice a name and date at the end of many of the lot descriptions. In most cases, these are NOT auction records. In fact, they represent the provenance for each coin! Careful records were kept at the time of purchase, with most pieces being recorded in a ledger, as to when, how much and from whom the coin was acquired. Reading over these names from thirty years ago will provide a nostalgic twinge to those dealers and collectors who will remember many of the names cited, and will provide unchallengeable provenance for all who might purchase a lot. For the younger numismatist, professional or amateur, they are part of the rich background that forms the fabric of our chosen field.

Among those mentioned are Bash Coin Co. (Champaign, Ill.), Ben's Coin Co. (Chicago), Brown's Coins (Oklahoma City), Coin Galleries and Stack's (N.Y.C.), Jerry Cohen (Old Pueblo Coins, then Tucson), Arthur Conn (Melrose, Mass.), Byron W. Cook (Jackson, Miss.), Copely Coin Co. (Boston), Criswell's (Fla.), B.M. Douglas (Wash., D.C.), Eureka Coin Co. (San Francisco), Henry Elliott (Coraopolis, Pa.), A.P. Gasser (Los Angeles), Frank X. Galvin (Oakland, Cal.), Ralph Goldstone (N.Y.C.), Robert Green (Skokie, Ill.), Garland Hughes (Grand Rapids), Hollinbeck Coin Co. (Des Moines), Imperial Coin Co.-Ben Stack (Las Vegas), James, Inc. (Louisville), Toivo Johnson (East Holden, Me.), M.L. Kaplan (N.Y.C.), James Kelly (Dayton, O.), Harry Leder (N.Y.C.), Kenneth W. Lee (Glendale, Cal.), J. V. McDermott (S. Milwaukee, Wisc.), B. Max Mehl (Star Coin Co. (Ft. Worth, Texas), Postal Products Co. (San Francisco), Jos. H. Press (St. Petersburg, Fla.), William Pukall (Union City, N.J.), Arnold Rosing (no address), Royal Coin Co. (N.Y.C.), Mark Salton-Schlessinger (N.Y.C.), Seattle Coin Co. (Seattle), Edwin Shapiro (N.Y.C.), Paul B. Slosson (Minneapolis), Louis Werner (N.Y.C.), Harold E. Whiteneck (Court Coin Co., Boston), O.B. Windau (Cleveland), and many others.

Prominent among these men are many who made their marks in Numismatics in the three decades since, including several who have written authoritative tomes on various aspects of Coin Collecting, and many others whose very names are legend in the profession. Unfortunately, few of these individuals are still active. But all are well-remembered, as well they should be!

- 251. **1851-O Choice Very Fine**, possibly dipped long ago. Only 88,000 struck. Criswell, 4/4/55.
- 252. 1852-O Another rare date (96,000 mintage), in Choice Fine.
- 253. Lot of Seated Quarters with Arrows at Date consisting of: 1853, 1854 (4), and 1855 (About Good); 1853, 1854 (2), 1855-O (Very Good); 1853 (2), 1853-O, 1854-O, and 1855S (Fine); and finally 1853, 1854, and 1855 (Very Fine) or better. Eighteen coins.
- 254. 1857S approaching Fine; 1858S Very Fine-20, cleaned long ago; and 1859S Choice Fine. Three better date coins, two with a mintage of less than 100,000.
- 255. Group of 1850's Seated Quarters-Consisting of: 1850 and 1857 (abt.Good); 1858 and 1859 (Very Good); 1856 (2), 1856-O, 1856S, 1857-O, 1858 and 1859-O (Fine); 1850, 1850-O, 1851, 1857 and 1858-O (Very Fine); and 1852, 1856 and 1859 nearing Extra Fine. Nineteen pieces.
- 256. **1864S** One of the tougher dates (20,000 minted). This example borderline Extra Fine.
- 257. Four better date Seated Quarters - 1865 (AU-50), 1865S (Very Fine, re-engraved), 1866S (Fine, dig), and 1867 toned (Very Fine).
- 258. Group of 1860's Seated Quarters-Consisting of: 1860 (Good); 1861 (VG); 1860, 1860-O, 1861, 1862S, 1868S, and 1869S (Fine); 1861, 1863, and 1864 nearly (Very Fine); and 1882 (EF-40). A dozen pieces with some difficult dates.

259. **1866** Softly struck which leads us to believe that this is a business strike, even though surfaces are proof-like and date and edges sharp. As such, quite rare (17,525 minted) and **beautifully toned**. Choice Extra Fine or better. Groom, 11/28/53.
260. 1868 Attractive and better than PROOF-60. 600 struck. B. Max Mehl, 12/13/54.
261. 1869 Peripheral toning with some light obverse hairlines noticeable under magnification, PROOF-60. B. Max Mehl, 12/13/54.

262. **1870 Cameo PROOF-65**, eye-catching. Conn, 6/53.

263. **1871** Similar to the previous lot in quality and appearance, 960 minted. Conn, 6/53.
264. 1871S Extremely rare in any grade, with only 30,900 struck. Fine-12. Groom, 11/28/53.

265. **1872 Superb PROOF** with few defects and fabulous lustre. A few tiny hairlines keeps it from gem condition. Light peripheral toning. Conn, 6/53.
266. 1872S Just makes Fine, but scarce nevertheless. 83,000 minted. Stacks, 7/5/55.
267. Lot of Arrows Quarters 1873 and 1873S (Abt. Good); 1873 and 1874S (Fine); 1874 (Very Fine), and 1873S almost (Extra Fine). Some have light scratches. Six pieces total.

268. **1875** Another frosty PROOF-63, mintage 700. Conn, 6/53.

269. **1878** A business strike, but of nice quality, lustrous and beginning to tone. **MS-63**, and suitable for a type collection. Conn, 6/53.

270. **1879** A beautifully toned and original piece, perhaps better than **PROOF-63**. Copley, 8/10/59.
271. Five better Seated Quarters: 1876CC (Choice Extra Fine); 1877 (Extra Fine); 1877CC (AU-50); 1878S (Fine-12) and 1878CC (Choice Extra Fine).
272. 1880 **PROOF**, not quite 63 due to light obverse hairlines. Groom, 11/28/53.
273. 1881 **PROOF-60+** Attractive peripheral toning and only 975 struck. Copley, 8/10/53.
274. 1882 Nicely toned **PROOF**, but noticeable hairlines keep this from Choice condition. Groom, 11/28/53.
275. 1883 **PROOF** but with signs of slight circulation, still attractive. Groom, 11/28/53.

276. **1885** Probably the **nicest** **PROOF** Seated Quarter in this collection. Lovely blue and violet colors over defect free surfaces, and difficult to find this nice. Copley, 8/10/53.
277. 1886 Golden colored **PROOF-60+**, extremely brilliant. B. Max Mehl, 12/13/54.

278. **1887** Of the 10,000 business strikes produced in this year, it is difficult to imagine a better quality coin existing. Proper peripheral toning and immaculate surfaces place this piece easily in the **MS-65** category, perhaps even better. A minute spot below the date and on 'E' of 'AMERICA' are mentioned for accuracy. Worthy of a strong bid, not only for its rare date but also for its **remarkable** state of preservation. Groom, 11/28/53.

279. **1888** Also more desirable than the PROOF of the same year, this business strike should fall into the **MS-63** grade. A few small dents on Liberty's forearm keeps this from a better rating, though attractive color and **eye-appeal** make up for any deficiencies.. Windau, 5/53.

280. **1889** Easily the coin with the most eye-appeal in this series. Rich orange and blue hues with deep mint lustre qualify this as **MS-64**. A few pinpoint field marks keep it from gem status. Rare as a business strike with **only 12,000** pieces minted. Groom, 11/28/53.

281. Four better date Seated Quarters: 1883 (VG+); 1884 (Fine-15), 1890 (Choice Very Fine), and 1891-0 (Very Fine). All difficult to locate in any condition.
282. Remainder of collection: 1871 and 1877 (AG); 1875CC, 1876S (2), 1877, 1878CC, 1888S, and 1891S (Fine); 1873, 1875S, 1876, and 1891 (Very Fine); and finally 1877S, 1888S, and 1891 approaching (Extra Fine). Sixteen coins.

284. 1896S Good plus, full rims. Always sought by collectors. Madison, 3/54.
285. 1899 Lovely iridescent example of this type. Obverse more colorful than the reverse, but overall a Choice Uncirculated specimen.

286. **1901S** The **Key date** of this series and also one of the most popular American rarities. Only 72,664 minted and always the empty space in most collections. This example grades Good-4, but desirable nevertheless. Eureka, 5/52.

288. 1913S Lowest mintage of the entire Barber Quarter series (40,000), Good-4.

289. 1914D Heavy tarnish obscures what could possibly be a Choice Uncirculated coin with few, if any surface defects, and strong lustre. A possible MS-63.

293. **1916** A great American Rarity! The first year of the series with only 52,000 minted. This example, brilliant **Uncirculated**, though possessing a soft obverse strike. Golden-brown toning with some darker areas. Worthy of a strong bid. Coin Galleries, 7/27/54.

364. **1860** Slightly scarce. Lovely creamy **BU-63**, just a couple of very trivial contacts preventing a full 65. Windau, 11/5/53.
365. 1860-O (G); 1860S (VF-digs in obverse field); 1861 (EF); 1861-O (VF) and 1861S (VF). Five slightly better pieces.
366. 1862S All three mintmark sizes, large and medium, both strong Fine, and the scarce small 'S', Very Fine.

369. 1864 Companion to the above and bought at the same time, same dealer. Condition just as the 1863.

370. 1864S In all three mintmark sizes, large (EF), medium (VF +), and small (VF +); 1863S nice (VF); plus 1865 toned, (EF +). Five coins.

381. **1875S** Nice subdued toning, satiny finish and very attractive. Clearly **BU-63**. Eureka, 4/53.

382. 1877S Although it appears stronger, several tiny contact marks preclude a rating higher than BU-60. Eureka, 4/53.
383. 1878 A coin which beheld straight-on looks to be a premium piece. Tilting, however, reveals numerous hairlines, thus just a BU-60. Windau, 11/5/53.

384. **1879** Only 5,900 minted, a rare coin. This is better than a 60 notwithstanding several well-hidden contact marks. Bright and nice. Imperial Coin Co., 2/8/54.

385. **1880 PROOF** 1,355 minted, this bright and mirror-like, a lovely coin, nicely frosted, and even with a few hairlines, better than a 60. Eureka, 4/53.

386. **1881 PROOF** Only 975 minted. This is a gorgeous **PROOF-63**, nicely toned over brilliant surfaces. Just beautiful. Stacks, 4/54.

387. **1882 PROOF** Fitting companion for the above and bought at the same time from the same dealer. 1,100 minted, this piece nicely toned and shows light obverse finger-marking, possibly keeping it from a full 63 rating.

388. **1883 PROOF** 1,039 minted. Very flashy, looks like a 65 but several tiny hairlines probably knock it down a grade or so. Eureka, 4/53.

389. 1884 Appears to be a PROOF, however, close examination reveals an old cleaning, making this now an AU example of a rare date, only 5,275 minted. Still pretty.
390. 1885 PROOF 930 minted Attractive even with considerable hairlining, but not much better than a 60. Imperial Coin Co., 6/22/54.

391. **1886** Proof-like business strike of a rare coin. Only 5,000 made. This is better than a BU-60, but not much. Windau, 11/5/53. Should be worth upwards of \$1,000.00.

452. 1851 Nice and strong, almost makes Extra Fine. Conn, 3/22/56.

Most of the cents are darkly toned from the holders in which they were stored, and many have spots which will be noted. COMING EVENTS AT HARMER ROOKE

The weekend of December 12th and 13th will be highlighted by our sale of the celebrated Harvey J. Hoffer Auction of the Coins of the Roman Emperor Hadrian. Quite probably, this is the finest collection of this Emperor ever assembled outside of Museum holdings, and features most of the minor metal rarities of Hadrian.

At the same time, the German Collection of Joseph L. Brandenburg will also be auctioned off in an all-day sale. This collection, painstakingly assembled over many years by Mr. Brandenburg, features German State minor and major coins, from Medieval Days to the 20th Century.

Particularly interesting is the finest group of Medieval bracteates we have been pleased to sell in many years. Together, the two collections comprise over 1500 lots. This sale will be on Dec. 12th.

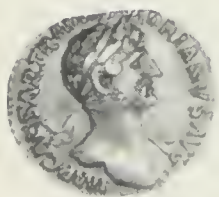

On December 13th, Saturday evening, Harmer Rooke will auction a huge collection of Swiss, German and Austrian Shooting talers and medals, many of them very rare and all quite beautiful. This sale will be preceded by the sale of the golden artifacts pictured on the following pages.

THE GOLDEN ARTIFACT SALE

One of the most interesting and unusual sales we have ever conducted will be the placing at auction of close to 60 pieces of jewelry, earrings, fibulae and other artifacts, all hand-crafted 150 to 200 years ago in 19 kt. gold. These pieces, impossible to duplicate today, are of the finest and most delicate workmanship and virtually all the jewelry is wearable in its present state.

The artifacts are all based on Etruscan, Greek and Roman pieces, many of whose prototypes, can be seen in the finest museums.

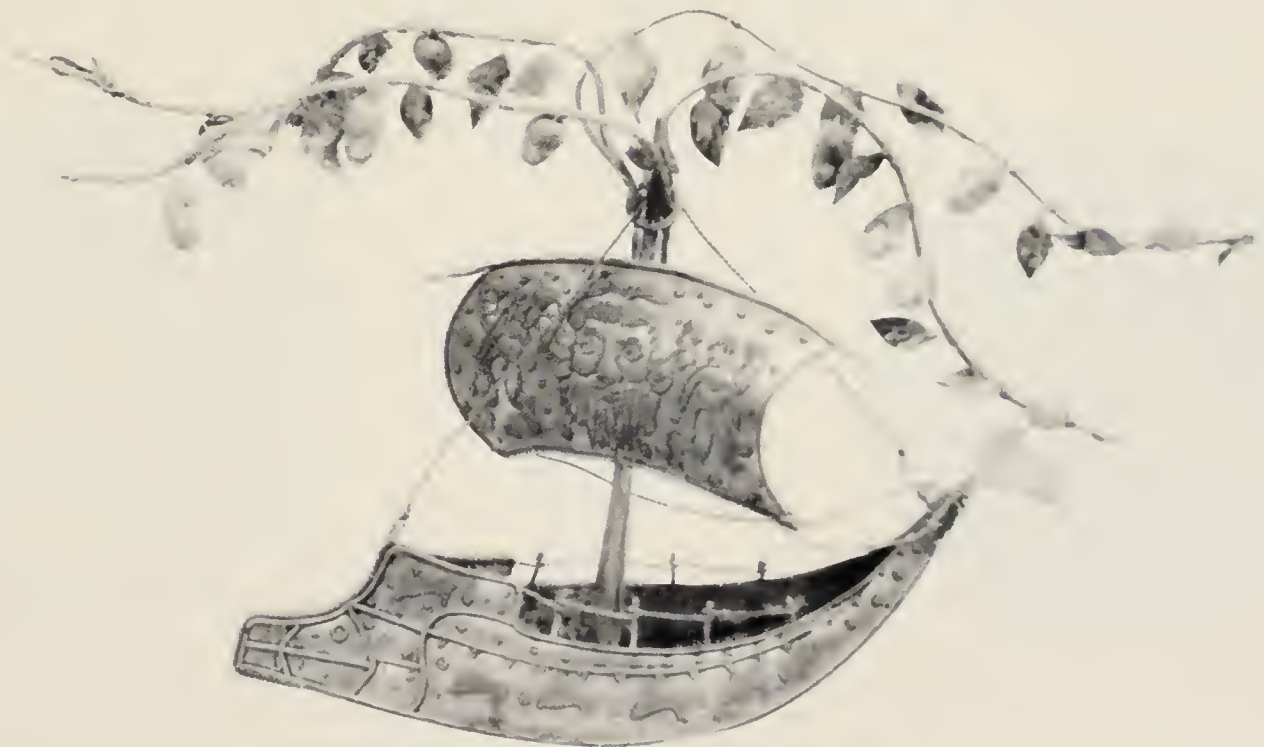

It is anticipated that this sale will be well-attended by collectors, history buffs and those who would like to acquire a completely unique piece of jewelry to wear. We are all looking forward to a most unusual and interesting evening!

HARMER ROOKE AUCTIONS

Founded in London in 1903, Harmer Rooke has been a leader in the Numismatic and Philatelic fields ever since. Beside general over-the-counter business, we have conducted Numismatic Auction Sales for decades, generally averaging about four per year.

Our customer lists comprise many thousands of the world's most active buyers of Numismatic properties, and our sales are always well-attended. Heavy mail coverage and a strong "floor" assures our consignees of the highest possible return on their coins.

Sales are held in our own Auction Rooms, comfortable, well-lit and spacious enough to hold up to 150 bidders. Refreshments are always on hand and our courteous and well-informed staff is available to help prospective bidders. Harmer Rooke's reputation for hospitality is well-founded!

Additionally, our research staff, backed by one of the largest Numismatic libraries available, always finds the facts that could make some of your coins special (and expensive!). Our photographic equipment is the latest and the best that the market can provide, and our photographers are veterans with years of experience in taking the picture that will show your coins off to their best advantage.

With all this going for you, shouldn't you consign your coins to Harmer Rooke for one of our upcoming auction sales? Consignment are now being accepted for the 1987 season, with sales projected to coincide with the seasons.
